Dott. Nino Calogero

Rotary New York

Message for the Memorial Day 9/11 in New York

Dear Nino,

according to our meeting the City of Palermo, Italian capital of Young 2017 and Italian capital of Culture 2018, in occasion of the Memorial Day 2017, do their own the idea of launching a new bridge between the Mediterranean sea and the Americas.

We want to reach Americas crossing a bridge of tolerance and education, basis to speak about peace and safety, to do the Mediterranean area a sea of life and not a sea of death.

The City of New York, model of multiculturalism and hospitality, lived in the September of 2001 a tragic moment who marked our century.

We wish that the memory of 09/11 can be the start of a new Humanism; or that Ground 0 may become Go!. It means let us came together to a new era where everyone can have a space without racial barriers to feel all of us citizens of the world.
